

## Newsletter July 2007

### From the Editor

Welcome to the latest issue of the EGEE newsletter. This accompanies international Science Grid This Week, our online magazine produced in collaboration with OSG. Below you'll find articles of interest from iSGTW as well as brief news from the project and upcoming events. If you have any comments or questions, the team can be contacted by sending an email to [project-eu-egee-dissemination@cern.ch](mailto:project-eu-egee-dissemination@cern.ch).

Regards,

### News from the Project

#### First EGEE-II project review report

The project recently received the official report on the first EGEE-II review, held in May this year. The report rated the project in the highest category, "good to excellent project". To quote the cover letter sent with the report, "the overall outcome of the review was positive and the reviewers acknowledge the progress made by the project in this first year. All the deliverables submitted in this reporting period are accepted." The reviewers also made several important recommendations for all activities, which the project must now address and respond to by 31 July, highlighting how this affects the activity plans for the second year of the project. These answers will be formulated at an All Activity meeting on 5-6 July at CERN, in which the activity managers will discuss the recommendations.

## EGEE events

The registration for the EGEE'07 conference in Budapest is open and you are encouraged to register soon to benefit from "early bird" discounted rates. All information and logistics details can be found on the conference website: <http://www.eu-egee.org/egee07/home.html>. Calls for bids for the next User Forum as well as for EGEE'08 have also been launched. Please contact the Project office if your institute is interested.
